①

2 main NY Sources - for the Ct. system.

NYSCEF and.

ECOURTS. - WEB CIVIL Supreme

NYSCEF is where we file case and docs to each case.
It is now mandatory in MS. Supreme Ct. And
most ~~case~~ courts. At least downstate.

NYS eCourts - Broad system w/ lots of data
no filing occurs here.

ECOURTS does have case documents. for most cases.
It will not have case documents for pre RTI case
(one where no motions have been filed)

~~E~~ ECourts is also part of the Lawyer Case tracking system. It allows us to track Cases, And get notifications as to when an event is coming.

It also ~~also~~ Allows you to track Lawyers which is good because some firms specialize, which allows you to have a gateway to someone who knows that matter well, ie mechanic's liens, personal injury etc. And use case they worked on that matches yours as a guide

WE ALSO PREP DOCS. for.
REAL ESTATE
Business DEALS etc.

Great Sources for that

NYC ATIS system (REAL ESTATE)

And for Business Deals

SEC EDGAR. —fucking great!

BUT painfully slow because it is not curated well.
